AUG 19 1999

Please consider this letter a response
to the revised CALFED plan. I oppose
CALFED's plan to raise Shasta Dam,
which would flood sections of the
upper Sacramento & McCloud rivers.

I urge CALFED to expand water
efficiency & conservation rather than
building new dams.

I support CALFED's proposed
restoration goals for the Central Valley,
including removing some facilities such
as Englebright Dam which is
a barrier to migrating Salmon.

Sincerely

Tim Berry Flat
